Subject: Meeting on OSHA proposed rule

Drs. von Holt and Reininghaus,

I would like to hold a meeting to discuss the scientific aspects of the proposed OSHA rule on IAQ/ETS. This would involve people from INBIFO, Richmond and Shook, Hardy and Bacon. The purpose would be to review our analysis of the science in the rule, and determine what additional work may need to be done and by whom. I hope to hold this on Tuesday June 14. Is this date acceptable?

Best regards,
George
